## "FLOREALP"

CHAMPEX (Switzerland)

SEEDS

## 1937-1938

The Florealp garden is situated at nearly 5.000 feet of altitude, in the Swiss part of the Mont-Blanc chain, on the lake of Champex.

The nearest railway-station is Martigny-Orsières on the route of the Grand Saint-Bernard.

The conditions of growth of the plants are particularly favourable both concerning soil, which is a moraine-soil, and climate, a real alpine climate.

The seeds are packed with the greatest care. We warrant the authenticity of the species delivered. The seeds are gathered from strong and healthy plants, cultivated in their natural soil, under the direction of our chief-gardener Mr. Katz, formerly chief-gardener of Mr. Correvon of Geneva.

PRICE OF EACH PACKET. — Each seed packet costs -/11. They are good sized packets but rarer species give smaller quantities.

## PRICES OF COLLECTIONS:

20	>	<b>»</b>		 	 10/-	post paid
50	>	>	1	 	 20/	)

We put (\*) for seeds which can be sold by weight. Please ask special offer.

TERMS. — The prices quoted are for cash on receipt of invoice.

Cheques to the order of J.M. AUBERT, Paris.

Packing and postage will be charged at cost price.

Seedorders amounting to 10/- are sent post paid.

All our parcels travel at Owner's Risk Rate.

Correspondence to be sent to J.M. AUBERT, 11, Rue Tronchet, Paris.
